Week 12
- Repaying a mortgage – long term cost, lump sum payment, increasing payments
- Reading advertisements for property

Week 13 and 14
- Using 6-digit grid references
- Understanding scales used on maps
- Calculating distances on maps

Practical Components

MAKE SURE TO BRING YOUR FOLDERS TO THE EXAMS.

MAKE SURE YOU HAVE ORGANISED YOUR FOLDERS AND HAVE COMPLETED WEEK 15 INVESTIGATION!

Investigation/Journal

Your investigations and journals will be handed in before your exams. Otherwise they may not be marked.

You should ensure that you have all investigations and journals in your folder and neatly presented. Remember your investigations make up 25% of your grade and your journals make up another 25% of your grade from the Semester.

Also spend some time this week organising your folder. It is an open book test, but this will only help you if you have an organised folder.
