

Goals

Unit goals

- Understand the concepts and techniques in statistics
- Solve problems in statistics
- Interpret and evaluate mathematical and statistical information

This week

- Revision – Poisson, Hypergeometric, Geometric

Theoretical Components

No new theoretical components this year.

Knowledge Checklist

See Briefs - Weeks 9 to 14

Practical Components

Revision questions on HawkerMath

Make sure you go back and complete any exercises not yet attempted.

You will need to revisit continuous variables as they will be on the Test.

Investigation

None – this is your chance to catch if necessary.

Quiz

None this week
